PROFILE SUMMARY

I'm a B.Tech CSE student. I'm very curious and Innova tech enthusiast. With a strong knowlege in programming languages like HTML, CSS, JavaScript. I'm passionate about developing software solutions that solve real world problems. I'm excited to apply my skills and knowledge to drive technological advancements and make a meaningful impact in the industry

PROJECT

Festify

Event Management Website

- Developed Festify, an event management website, using HTML, CSS, and JavaScript.
- Implemented a responsive design to ensure cross-device compatibility and a user-friendly interface.
- Integrated email functionality for event notifications and user confirmations.
- Enhanced site interactivity with JavaScript features for real-time updates and event management.
